THE SAVE A FAMILY PLAN NEWSLETTER

Offering Hope in a Time of Crisis

World-wide, heartfelt concern and prayer goes out to the people of India and their loved ones who are struggling during the COVID-19 crisis.

The international community is responding by providing the Indian government with desperately needed health care supplies, while medical personnel, front-line workers, and our SAFP field staff continue to navigate the risks associated with supporting families impacted by the virus.

Inevitably, more and more communities within India - a country already challenged by the harsh reality of extreme poverty - will become vulnerable as the rate of COVID-19 cases increases and the number of impoverished families continues to grow. Currently, many SAFP partner families are struggling to access nutritious food, comprehensive health care, formal education, and reliable employment.

Fortunately, our Family Development Program is ready to offer these families hope. We are supporting current partner families, ensuring they have access to basic necessities and are connecting them to resources available in the community that will assist them during the pandemic. This means participants of this highly successful program have hope for a better future. Hope for a sustainable income that can meet the needs of their loved ones. Hope for a better tomorrow for their children.

Save A Family Plan is not only supporting current partner families during these uncertain times; we are also planning ahead and focusing on extending our reach to support as many new impoverished families in India as possible. We aim to provide more generations with the opportunity to experience a lifetime of self-sufficiency, dignity, and resilience.

We ask you to join us in our quest to grow and expand our organizational family, including both our incredible partner families and the dedicated SAFP staff members in both India and Canada who work tirelessly to carry out our mission. By ensuring the sustainability of this incredible organization during these unprecedented times, we can continue to honour our commitment of partnering with the poor for a just world well into the future.

Turn the page to find out more about how you can help!

Together, we can continue to achieve resiliency and sustainability for our partner families!

In order to provide further support, please consider the following:

- Sign up to support an additional partner family to help us reach our goal of adding more than 1,000 new families to the program this year.
- Join our efforts in responding to the COVID-19 crisis by contributing to our COVID-19 Relief Fund (see below for further details).
- Spread the word! Tell your family, friends, and colleagues about Save A Family Plan.
- Donate towards SAFFP's 'most urgent needs' (including programs and operations) to support us in meeting our priorities.
- Include SAFFP in your legacy planning. Call our office for details.

COVID-19 Relief Fund

Join us today in assisting families currently impacted by the second wave of the COVID-19 pandemic in India! Donations for our COVID-19 Relief Fund will be directed towards SAFFP partner families facing the greatest challenges during this crisis. Those requiring immediate assistance with needs such as food, water, medicine, masks, and hand sanitizer will be identified and supported by our India team.

As part of the COVID-19 Relief Fund, families in the Family Development Program (FDP) will also be eligible for financial support to help them re-establish Small Business Initiatives that failed to thrive during the pandemic or in starting new businesses that will succeed with the changing economic environment. During this time, all families will continue to receive their regular support as part of the FDP, ensuring a sustainable solution to their dire circumstances and securing a safe future for their children.

Help us reach our goal of \$75,000 by donating online at www.saffp.org or calling our office at 1-855-333-1115!
